## DON'T TAKE CHANCES.

In order to guard against the spread of contagious diseases all dwellings should be thoroughly disinfected after every case. If moving into an old house, you know not what disease germs may be lurking in the place. Protect yourself and family by having the place disinfected. Formaldehyde is recognized by the scientific world as the most powerful disinfectant known and when used judiciously will destroy all known bacteria without injuring furnishings in the room. Experience is required to do the work properly. Half way measures will not avail.

W. D. Hoover, at Howe's Furniture Store, is provided with a Formaldehyde Generator of the latest and best pattern, and is prepared to do disinfecting by the most approved up-to-date method.

### BLACKLEG IN CATTLE

Is prevented by vaccination before the germ of the disease has entered the system. The success of vaccination depends upon proper dosage. Too large a dose will produce the disease while too small a dose will not render the animal immune. This problem is solved by Parke, Davis & Co. in their new vaccine in pill form which is injected through the skin. No mixing, filtering or time wasted and you don't have to spend a fortune to vaccinate your cattle. P. D. Co, book, "Blackleg and its Treatment." free

### A Tennessee Comedy.

The New York Herald had the following concerning "A Romance of Coon Hollow" when it was produced at the Fourteenth Street Theatre: "It is styled a romantic comedy, but it has a melodramatic flavor, being provided with thrilling incidents and exciting situations and embracing some very realistic mechanical effects which served to enthuse the spectators. The piece was well staged, with every attention paid to detail. The audience was very friendly, and that they were well pleased with what they saw and heard may be inferred from the heartiness and frequency of the applause bestowed and by the recalls with which the leading performers were favored during the evening. The scenes representing Coon Hollow, the steamboat race, and the cotton compress in operation were very realistic and elicited merited applause, while the negro dances and choruses in the third act awoke the audience to enthusiasm. Some very beautiful and novel electrical effects were introduced. "A Romance of Coon Hollow" with the original New York cast and scenery, including the troupe of colored dancers and singers, is announced for Tuesday, Jan. 21st, at Lloyd's opera house, Iola Pomeroy has the leading comedy role.
